

# Your Wedding Day

COVID-19 Edition

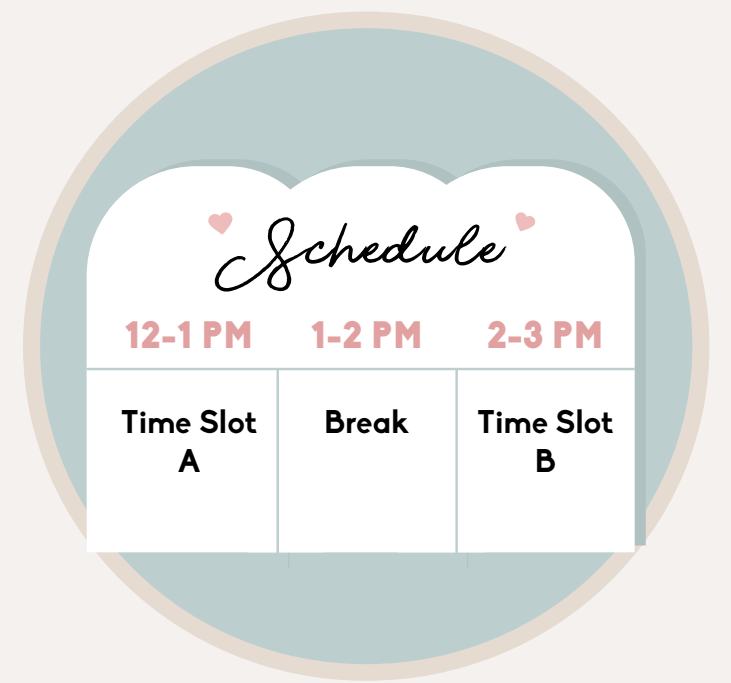

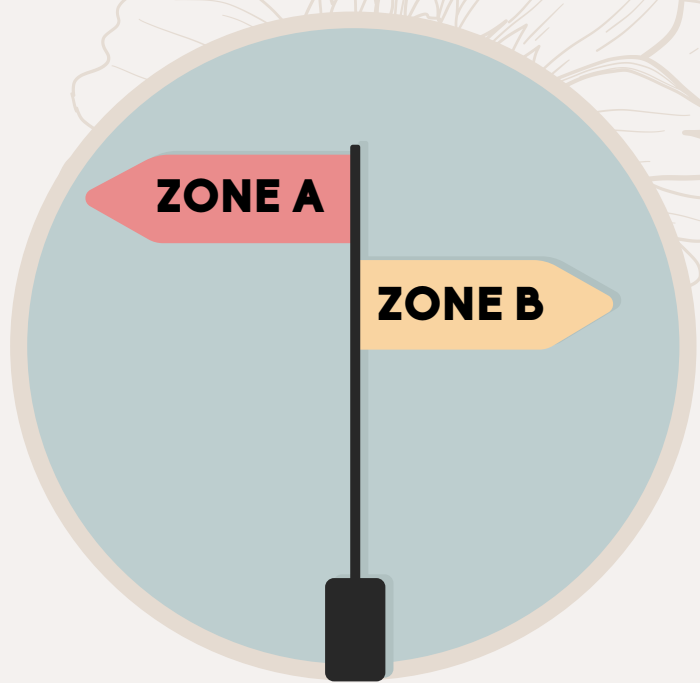

## SAFE MANAGEMENT MEASURES

Organisers (which could include venue operators / owners, wedding planners, the wedding couple or relatives / friends) are required to put in place the following, with effect from 3 October 2020:

**100\*** people allowed for the entire event

**1** reception per couple, must be completed within same calendar day

\* Or venue's capacity after implementing safe management measures, whichever is lower. Excludes vendors and premise staff (to be kept at minimum). Wedding-related activities at home, such as a meal following a solemnisation, are subject to prevailing requirements of no more than 5 visitors to a home.

### Limit Interactions to Reduce the Risk of Spread

- Attendees should interact only within assigned groups:
  - "Wedding party" of up to 20 pax (including bride and groom)
  - Remaining guests split into fixed groups of up to 5 pax each
- No intermingling between the "wedding party" and all other guests, or between groups
- Maintain at least 1-metre distance between all assigned groups at all times
- Fixed seating only; no free-standing activities (e.g. cocktail reception)

### Zoning and Staggered Timing Requirements

If >50 people, the group is to be split in either of the following ways:

#### Multiple Zones of up to 50 People in each zone

- Every attendee must be assigned to one zone. This includes the wedding party
- No entry to unassigned zone; wedding couple may do so briefly (e.g for photos)
- Zones must be separated by a solid partition or at least a 3-metre wide spacing with barriers

#### Staggered Timings with up to 50 People in each slot

- Guests must be assigned to one time slot and can only be present during their scheduled time slot. Only the "wedding party" may be present in multiple time slots
- Minimum of 30 minutes between time slots for cleaning and disinfection of event space, common areas and surfaces

### Avoid Activities that Increase Risk of Transmission

- No self-service buffet set-ups
- No sale or consumption of alcohol after 10.30pm
- No live performances or activities involving singing, loud talking or shouting

### Wear Face Masks to Protect One Another

- Bride and groom may wear face shields instead of face masks. They can unmask for key moments, **but must be at least 2 metres from others at such times**
- All guests must wear masks at all times

### Keep Our Loved Ones Safe: Facilitate Contact Tracing

- Premise owners / organisers to **take temperature** of all attendees, and turn away those with fever and / or who appear unwell
- All guests should **activate TraceTogether and use SafeEntry to check in and out**. Organisers should have unique QR code for the event space (e.g. hotel ballroom, function room)

Let's do our part to keep Singapore COVID-19 safe!
