

Dear \${FNAME}\$,

In aims to be more sustainable, all PAP Town Councils will upcycle decommissioned MRT train parts. This initiative will rescue about 14,400 kg of material from going to landfill, and allow Town Councils to save over \$275,000 in costs to deliver better value for residents.

Check out the upcoming National Day celebrations in stored for our Town!

In this issue, we have also included updates on the North-South Corridor that will bring about greater convenience for our residents in future.

Stay tuned to our weekly highlights for more news closer to home. Join our Telegram channel, follow us on Facebook to stay in the know.

Upcycling From MRT Trains

UPCYCLING FROM MRT TRAINS

By 2025, 15 Town Councils will upcycle under the Action for Green Towns initiative:

1500 SEATS	-->>>	
Seats in community areas		
900 INTERCOM & LIGHT COVERS	-->>>	
Plant holders for community green spaces		
1400 HANDRAILS	-->>>	
Handrails for less mobile residents		

	Rescue 14,400 kg from landfill		Savings of \$275,000
---	---	---	--------------------------------

Better homes for this generation and the next

“ Our collaboration with LTA not only gives a useful second life to MRT seats but also allows us to retain a part of our land transportation history within our estate. ”

Ms Poh Li San
Sustainability Champion
Sembawang Town Council

As part of the commitment to create a sustainable home in Singapore, all 15 PAP Town Councils will upcycle decommissioned parts from MRT trains (at least 1500 seats, 600 intercom covers, 300 LED light covers and 1400 handrails) to enhance residents' living environment while reducing landfill waste.

Based on suggestions from residents, the MRT parts will become seats in community areas to rest and connect, plant holders in community green spaces, hand rails for accessibility and safety for less mobile residents. Let us continue to #MakeSembawangGreen together!

Updates on the North-South Corridor (NSC).

Photo Source: Ms Poh Li San Facebook Page

At the launch of the NSC Project Information Centre, Ms Poh Li San, MP for Sembawang GRC (Sembawang West), shared that she had learnt about the complex engineering challenges and solutions deployed in the development of the North South Corridor (NSC).

The NSC (at 21.5km long) is probably one of the most complex roadway projects worldwide due to the dense built-up area in Singapore. Fortunately for Sembawang GRC residents, the the NSC viaduct is built above ground, so residents will be able to enjoy new cycling paths and green corridors that will be built underneath the viaduct.

Early stages of road works have already started along Gambas Avenue and residents may experience a little inconvenience, but look forward to the long-term benefits.

#EatWhatFriday:

O.BBa Jjajang

In the corner of Woodlands, we discovered some hearty Jjamppong and Jajangmyeon from O.BBa Jjajang! Generous portions and priced reasonably at \$9.90, the jjamppong was served with loads of seafood, including prawns, clams and mussels! The Jajangmyeon was flavourful as well, and we liked that the bean sauce wasn't too heavy nor sweet.

Check them out at Koufu HQ Foodcourt Stall #02, 1 Woodlands Height #01-01, Singapore 737859

[f Find out more](#)

Overscoop

We went a little further to explore the North and tried this ice cream place at Yishun Junction Nine, Overscoop. They offer a wide variety of flavours that left us spoilt for choice. They also gave an extra mini scoop for each order too! We tried the Speculoos Biscoff and Rum and Raisin flavours, and had a sample of Pistachio and Strawberry Shortcake on both their waffle and croffle! For us, the highlight was definitely the Rum and Raisin flavour.

Check them out at 18 Yishun Avenue 9 Junction Nine #01-83 Singapore 768897
